Reference: FCC Docket Nos 96-45, 98-171, 90-571, 92-237, 99-200, 95-116, 98-170
and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Do any of you people at the FCC know anything about "supply and demand"? In this day when the US economy, "SUCKS", why would you raise taxes and add fees? If you want people to spend more, lower prices and decrease fees. I don't know how much you people at the FCC make but I work in a durty, loud, printing press company for \$6.50/hour. Then I get taxed, being single and working. With increase in gas prises, I sometimes wonder if it is actually worth the money for me to go and pick my pay check up. Get off you well paid government jobs and go work for a company that treats you like hell, no security, today you have a job tomorow you are looking for one. If you want to know whats wrong with America today then go out from your office and ask the kid who is making you the coffee, how much he makes, and how long his work day is and how hard he works. Maybe then you will appreciate and actually consider the middle working class, which is stuggling now, when making your pol!
icy's.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Denis Karandeyev
